## Education

### Rajiv Gandhi Institute of Technology, Mumbai

2022 – 2026

*Bachelor of Engineering in Electronics and Telecommunication*

*CGPA: 8.35*

Honors in Artificial Intelligence & Machine Learning

**Coursework:** AI/ML in Mathematics, Game Theory, Healthcare, Web Design, Data Structures and Algorithms, Database Management Systems, Computer Communication Networks, Object Oriented Programming, Operating Systems.

## Skills

**Languages:** Java, Python, SQL, JavaScript, TypeScript.

**Frameworks & Databases:** React.js, Node.js, Express.js, Next.js, FastAPI, MongoDB, PostgreSQL, Supabase.

**Tools:** Git, GitHub, VS Code, Vercel, Linux, Docker, REST APIs, Postman, AWS.

**AI/ML:** LLMs, NumPy, Pandas, OpenCV, MediaPipe, Generative AI, RAG, Vector Databases, Prompt Engineering

**Interpersonal:** Leadership, Public Speaking, Pitching, Analytical Thinking, Critical Thinking, Problem-Solving, Adaptability.

## Experience

### AI/ML Intern – InLighnX Global Pvt. Ltd. ([Certificate](#))

April 2025 – May 2025

- Built a real-time sign language recognition system using **CNN pipeline**, achieving **90% accuracy** and enabling live gesture-to-text translation via webcam, improving accessibility for non-verbal communication.
- Pre-processed the data** and augmented training datasets using **MediaPipe** for precise hand landmark extraction and **OpenCV** for video processing while ensuring model reliability.

## Projects

### UniPlacement | *Next.js, NLP, RAG* | [GitHub](#) | [Live Demo](#)

2026

- Engineered an AI-powered SaaS platform with role-based Admin/Student workflows, enabling **automated eligibility filtering**, application tracking, and resume customization via **skill-JD matching algorithms**.
- Built an **NLP-driven** Resume Intelligence engine with **RAG-based** recommendations and VectorDB search to extract structured resume data, compute fit scores, identify skill gaps, and generate personalized support.

### Hotel Receptionist & Operations Platform | *FastAPI, Supabase, PostgreSQL* | [GitHub](#) | [Live Demo](#)

2026

- Engineered a **multi-tenant** AI backend automation with **2-stage intent classification** routing guest messages with **idempotency guarantees** and **RLS** enforcing strict tenant isolation across different OTAs
- Built a **guarded NL→SQL** data assistant combined with **RAG** over a hotel knowledge base with source citations served via a React/TypeScript owner console with real-time event feeds and Hinglish language support.

### SleepCare | *WebSockets, MERN Stack, ESP32* | [GitHub](#) | [Live Demo](#)

2026

- Engineered an IoT health system on **ESP32-S3 integrating 5 physiological sensors** streaming 10-seconds buffered windows for ECG cardiac event processing, live Socket.IO broadcasting pipelines across 4 clinical modes.
- Trained a **1D-CNN arrhythmia classifier** with real-time backend inference and EEG-based sleep stage classification from live cognitive-state estimation using Alpha, Beta, Gamma, and RMS signal bands.
- Architected a MERN-stack platform as Observer pattern for live dashboards, and mode-wise historical analytics with **RAG-based session querying** and real-time alerts, 4 Excel export pipelines.

### Promptly | *MERN, LLM APIs* | [GitHub](#) | [Live Demo](#)

2025

- Developed an AI-driven chatbot system with user authentication and session-based chat history, enabling private, persistent, and searchable **12+ user conversations**.
- Integrated **LLM API** with a React frontend and Express backend, designing **efficient streaming** request pipelines and state management for low-latency conversational experiences.

## Extracurricular Activities & Achievements

### WDC, RGIT | *Chairperson*

July 2025 – May 2026

- Led the Women's Development Cell, coordinating with **3+ departments** for event planning and creative initiatives, building cross-functional relationships to advance women's empowerment at the institute level.

### IEEE, RGIT | *General Secretary*

July 2025 – May 2026

- Directed teams of **15–20 members** across technical and non-technical events, workshops, and external collaborations; served as **Editor** of the IEEE Annual Magazine COGNIZANCE 2025.
- Moderator, Panel Discussion “AI-360” with industry specialists; delivered **technical presentation** to 300+ live audience.
- IDEATHON'25 : **Pitched a MVP** to judges and presented its market analysis TAM/SAM/SOM and **product thinking**.
- Best Debater, Icarus 2025 TechFest:** Won through data-backed argumentation and persuasive communication.
